

# PUBLIC NOTICE

## PERMIT APPLICATION: NRS 05.323

**APPLICANT:** Howard Wall  
1897 Southeast Broad Street  
Murfreesboro, Tenn. 37130  
615-895-8221

**LOCATION:** Wetlands adjacent to an unnamed tributary to East Fork Stones (mile 9.55), proposed development near the corner of US 231 and Cherry Lane in Murfreesboro, Rutherford County, 35.9267 °N, -86.3935 °W

**WATERSHED DESCRIPTION:** The wetlands are part of a wetland complex along two unnamed tributaries to East Fork Stones River, in the Stones River watershed (HUC TN05130203). The project site is 46.8 acres, with a total of 4.36 acres of jurisdictional wetlands. The area wetlands were determined to be Tier 1 waters. The immediate area is under increasing residential development.

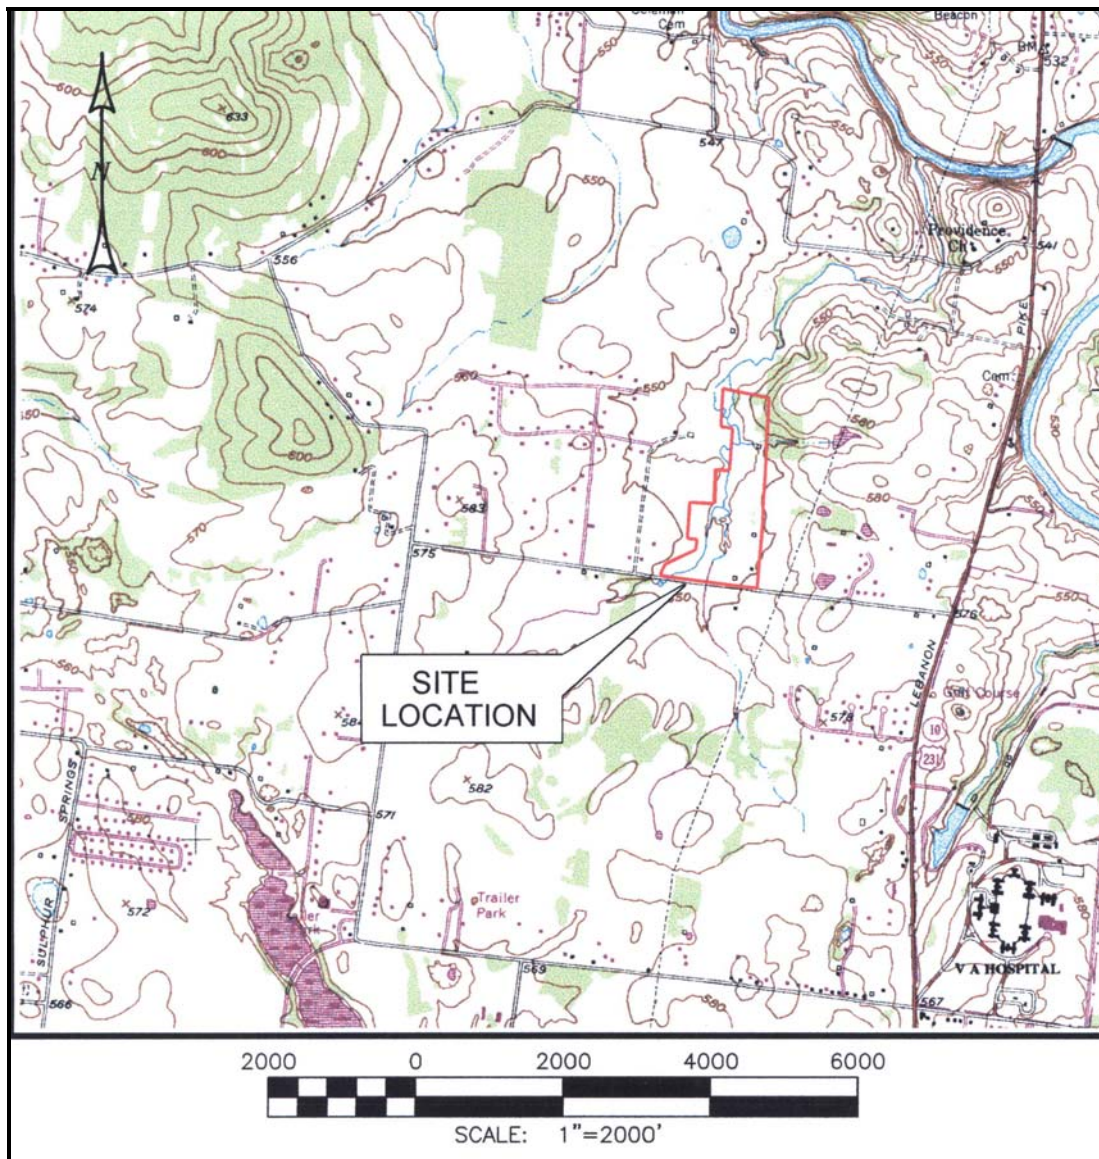

**PROJECT DESCRIPTION:** The applicant proposes to fill .158-acres of jurisdictional wetlands for the purpose of developing a high-density housing development. The effected wetland is dominated by green ash (*Fraxinus pennsylvanica*), black willow (*Salix nigra*), swamp rose (*Rosa palustris*), button bush (*Cephalanthus occidentalis*), supplejack (*Berchmeia scandans*), white panicle aster (*Aster lanceolatus*), small fruit primrose-willow (*Ludwigia microcarpa*), marsh seed box (*Ludwigia palustris*), and blunt spikerush (*Eleocharis obtusa*). The two unnamed tributaries will not be altered by this project. The applicant proposes to mitigate these wetland impacts off-site by purchase of 3.16 credits from the Harpeth Wetland Bank (a 2:1 ratio)

**PERMIT COORDINATOR:** Juliana W. Kyzar

**USGS TOPOGRAPHIC QUADRANGLE:** Walter Hill Quad 315 NW
